

Math Level 1 explores topics such as number sense and place value. Students are introduced to addition and subtraction and are encouraged to approach numerical problems in clever ways. Additionally, they manipulate shapes, compare numbers, and examine ways to measure physical objects. We use puzzles and games to build skills and establish student understanding of mathematical concepts and problem solving.

Beast Academy provides a fun, rigorous, and challenging complete curriculum for aspiring math beasts. Our philosophy is that students develop more by learning to solve problems they haven't seen before, as opposed to offering repeated drills that students can memorize their way through.

Book: Beast Academy 1A – 1D

Time Commitment: This 36-week course includes 105 minutes in-class and 60-90 minutes of homework each week, corresponding to a full year course.

Content:

Week	Topic	Week	Topic
1	Creative Counting	19	The Number Line
2	Counting to 100	20	Tens
3	Shapes and Spins	21	Splitting Sums
4	Spins and Flips	22	Ordering Numbers & Chapter 7 Quiz
5	Split and Combine	23	Comparing Sums
6	Chapter 1-2 Quiz & Comparing Number	24	Comparing Differences
7	More or Less	25	Shape Patterns & Chapter 8 Quiz
8	Comparing Lengths	26	Skip-Counting Patterns
9	Review & Chapter 3 Quiz	27	Unusual Patterns
10	Introduction to Addition	28	Digits and Big Numbers & Chapter 9 Quiz
11	Addition Strategies	29	Counting with Big Numbers
12	Adding by Tens	30	Expanded Form
13	Subtraction & Chapter 4 Quiz	31	Direct and Indirect Comparison & Chapter 10 Quiz
14	Difference	32	Units of Measurement
15	Subtraction Strategies, Properties	33	Clocks and Calendars
16	Categories & Chapter 5 Quiz	34	Position and Coordinates & Chapter 11 Quiz
17	Circle Diagrams	35	Directions
18	Problem Solving & Chapter 6 Quiz	36	Order Puzzles & Chapter 12 Quiz

Common Core State Standards:

The content covered in our Math Level 1 class is loosely based on the standard created by the Common Core State Standards Initiative. We cover many of the standards from grade 1, as well as standards for kindergarten and grade 2. You can find a document with the complete list on our Beast Academy Planning page (<https://beastacademy.com/resources/planning>). Or, you can access the standards by navigating directly to

<https://beastacademy.com/u/pdfs/planning/standards/BA1Standards.pdf>

Sample Problems:

- What number goes in the box to make a true equation?

$$1 + 9 + \boxed{} = 13$$

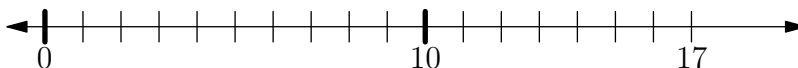

- Subtract:

$$64 - 7 - 4 = \boxed{}$$

- Hazel has a bowl full of jelly beans. Each of Hazel's friends takes 2 jelly beans from the bowl. There are 6 jelly beans left in the bowl. Which of the following could have been the number of jelly beans that Hazel **started with**?

1 2 4 11 16 23 31.

- How far apart are 10 and 17 on the number line?

- What comes next in the pattern?

- Grogg's birthday was 4 months ago. How many months from now is Grogg's next birthday?
- Put $<$, $>$ or $=$ in the blank to compare the two differences.

$$75 - 26 \quad \underline{\hspace{1cm}} \quad 75 - 31$$
